

Ergonomics Evaluation Report

Posture Analysis

- Neck Flexion: Red risk (Angle: 158.16467546307916°)
- Shoulder Elevation: Green risk (Angle: 3.4036803245544434°)
- Elbow Angle: Red risk (Angle: 130.18951456579921°)
- Wrist Deviation: Red risk (Angle: 179.17142911307909°)
- Pelvic Tilt: Yellow risk (Angle: 14.805450439453125°)

Workstation Analysis

Monitor:

- MonitorHeight: Red (Δ 118.70453041791916)
- ViewingDistance: Green (Δ 260.32965087890625)

Chair:

- SeatDepth: Green (Δ 95.02325439453125)

Risk Summary

posture: red; workstation: red

Exercise Recommendations

Wrist stretches: Extend your arm, palm up, and gently pull your fingers back with your other hand for 15–30 seconds. Repeat both sides.

Neck retractions: Gently tuck your chin and pull your head back to align your ears over your shoulders. Hold for 5 seconds, repeat 10 times.

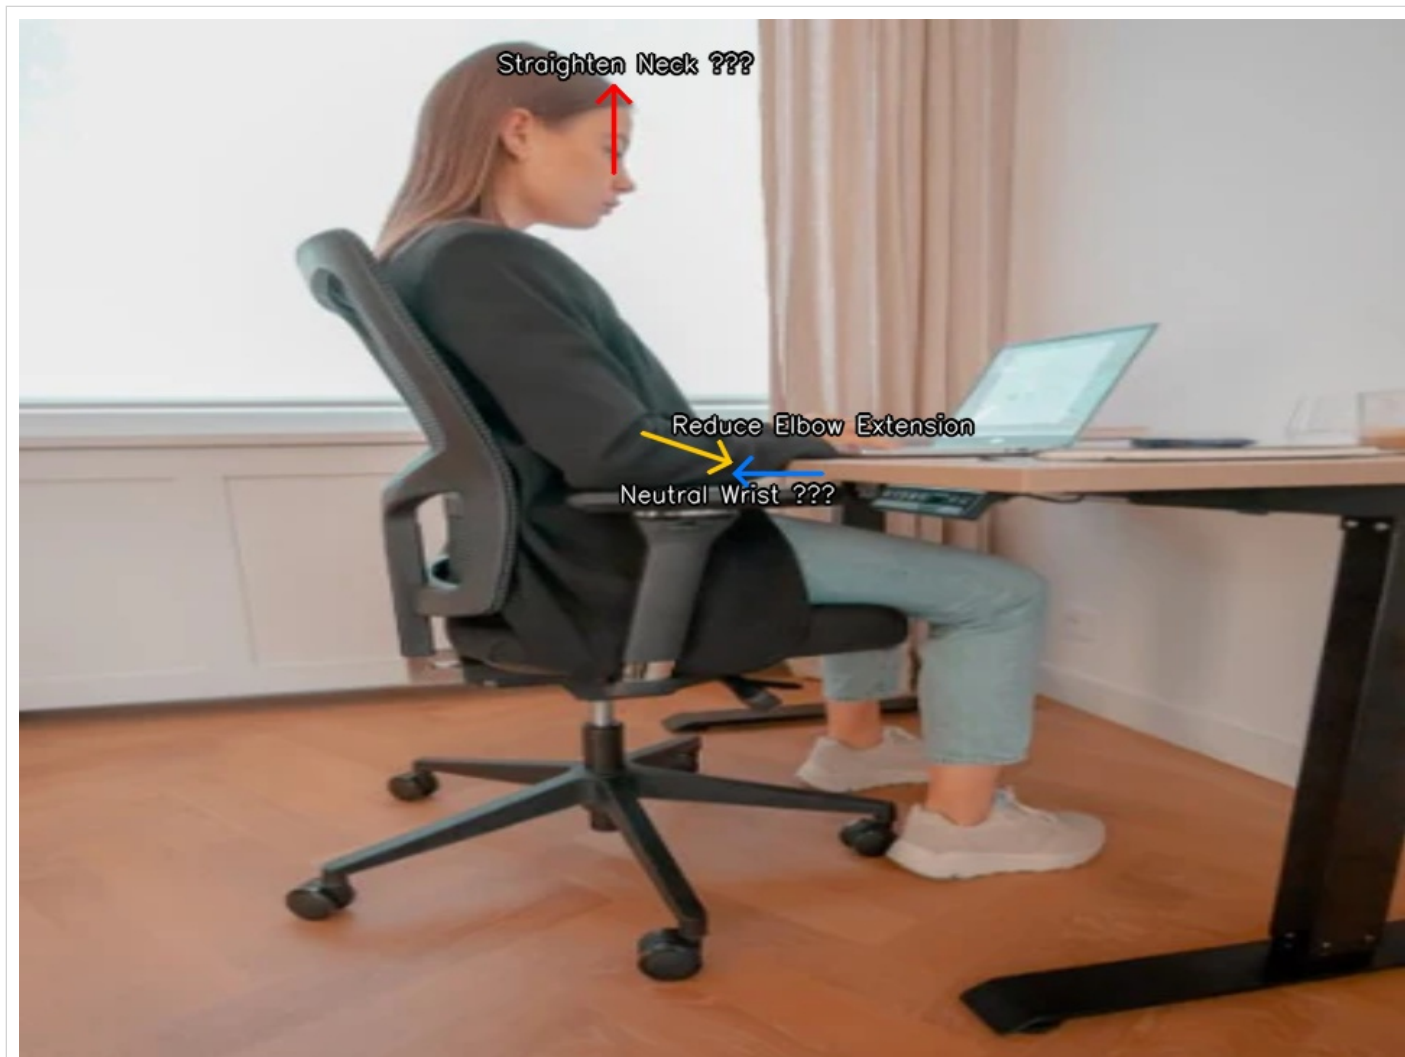

Seated upper back stretch: Clasp your hands in front of you and round your upper back, holding for 20 seconds.

Shoulder rolls: Roll your shoulders up, back, and down in a circular motion for 10 repetitions.

Forearm stretches: Extend your arm, palm down, and gently pull your fingers down and back with your other hand for 15–30 seconds.

Final Advice

Your current posture and workstation setup present high ergonomic risks, especially for your wrists/hands and neck. Immediate workstation adjustments and posture corrections are necessary to prevent further strain and reduce pain. Prioritize using external devices and elevating your screen. If symptoms persist or worsen, consult a healthcare professional.
